

Have you always wanted to change your existing restaurant into a “BREW-PUB” with your own Craft Beer brewery?

**Here is the answer!**

## Invest in your own ingenious “Contain-A-Brew”!

A 200l or 500l automated brewery within the confines of a 6m or 12m shipping container! It functions completely as a standalone brewery and can be built into an adjacent wall to your current pub or restaurant!

Put your pub or restaurant on the map with your **OWN** craft beer brand!

# What do you get in your Contain-A-Brew?

1. **A Grain Milling System**
2. **A Two-Vessel Stainless Steel Brewhouse with**  
Mash & Lauter tun, Kettle/Whirlpool tank, Hot Liquid tank, Plate heat exchanger, Wort & Hot water pump, Work platform & many accessories including Stainless Steel Brewhouse piping, Wort oxygenator, Saccharometer, Wort thermometer & Condenser device
3. **Fermenting System with**  
4 X Fermentation tanks
4. **Glycol Cooling System with**  
1 X Glycol water tank, 1 X Glycol chiller, 1 X Cold Water Tank, Cold Pipeline, Insulation pipeline
5. **CIP Cleaning System with**  
Portable pump, CIP Pipe & valves & Control unit
6. **PID Automatic Controller**  
For automated control of the Brewhouse, Fermenting & Cooling

*Contact us and we will make your “CRAFT BEER BREW-PUB” dreams come true!*
